

PRESS RELEASE

A1094 to Snape and Aldeburgh opening ahead of time

Following a recent meeting with Anglian Water the Aldeburgh Business Association is delighted to announce that the A1094, from the A12 to Snape and Aldeburgh, will be re-opening on Saturday 26th in the evening.

Anglian Water have made excellent progress despite many challenges and issues with existing water mains and have worked closely with Essex and Suffolk Water, not only to complete the project in record time, but to replace the water pipes as part of the project. Like the majority of businesses the weather has proved to be an added challenge and created it's own problems but, despite this, work has been completed over a month ahead of schedule.

Following meetings with Naomi Tarry, Chair of Aldeburgh Business Association and Director of Best of Suffolk, prior to the work starting the estimated length of the project was reduced from 90 days to just 49. Anglian Water and their partners Barhale were able to dramatically reduce the length of the works due to increased resources, changing the work methods and working extended hours and weekends.

Temporary 2 way traffic lights will, however, be operational from Monday 28th May to Wednesday 30th May in the evening outside Church Garage at the junction of Wadd Lane, with the A1094 being fully operational from Thursday 31st May ready for the many celebrations taking place for the Queen's Diamond Jubilee over the weekend.

Suffolk County Council Highways Department have been most proactive and accommodating in changing the diversions and signage, as well as dealing with issues relating to speed restrictions to reflect requests from residents in Snape, Friston and Sternfield, minimising the impact on the communities.

Anglian Water and their participating contractor Barhale would like to thank the residents and businesses in Snape, Aldeburgh and the surrounding area for their patience, support and understanding whilst these essential works took place.

Details of local Jubilee Celebrations can be found at <http://suffolkcoastbusiness.co.uk/>
